HOTELS.

ALEXANDRA HOTEL AND PINTO'S HOTEL MATHERAN.

MR. J. C. PINTO, the Proprietor of the both Hotels, begs to inform the Public that the above Hotels are now OPEN to VISITORS. There are seven separate Bungalows attached to the Hotels well adapted for Families, for whose comfort every care is taken. The Hotels are well situated, occupy a central position, and are therefore very conveniently placed within the reach of several POINTS. They are also nearest to the Station and in a breezy locality under the shade of large trees, which diminish the glare and keep the extensive compound always fresh and cool.

THE CUMBALLA FAMILY HOTEL.

THE Proprietor of the above Hotel begs to announce to the European Gentry of Bombay and the Mofussil, that he is now prepared to accommodate BOARDERS, VISITORS, and FAMILIES at the above Hotel on the most reasonable terms. The premises are those formerly known as "CUMBALLA HOUSE," and are most delightfully situated in the healthiest part of Bombay. They command a fine view of the sea and of Breach Candy, and the rooms are open to the cool, refreshing, and health-giving westerly sea-breeze.

Being also situated in a comparatively retired and quiet spot, this Hotel possesses all the advantages of a private residence, without the inconvenience of keeping up a large private establishment, and is in other respects admirably suited for families, and for residents on Malabar Hill and Breach Candy, and others, who entertain a repugnance to Hotel life in the sense in which that term is generally understood and applied in Bombay. A Sitting-Room, and Bath-Room, &c. are attached to each Bed-Room, which for cleanliness, convenience, and comfort leave nothing to be desired. A first class Table is provided; the Breach Candy Swimming Bath is in the immediate neighbourhood of the premises.

Boarders and others staying at this Hotel have the additional advantage of being able to reach the Fort without passing through the Native town, while he distance is only about the same as from Byculla.

A NEW REMEDY FOR DYSENTERY, DIARRHŒA, &c.

DYSENTERY seldom proves fatal to *Natives*, owing to their knowledge of Indian drugs, whereas it almost invariably has its victims amongst Europeans.

Motiwala's Dysentrodyne being entirely a vegetable extract, prepared from the prescription of a very eminent and experienced Native Medical Practitioner, never fails to cure Dysentery in any stage, with or without blood, Diarrhœa, Vomiting and all Bowel Complaints.

In order to increase its usefulness and to convince the Medical Profession of its marvellous curative powers, Mr. Motiwala will, on application by medical gentlemen in charge of Hospitals and Dispensaries, supply the same gratis to them.

For further particulars and certificates of cures, see handbills which accompany each phial. A trial only costs four annas.

Agencies invited all over India. Liberal discount allowed to trade.

Sold in phials at 4 annas and 8 annas by Messrs. B. S. MADON and Co., No. 12, Meadow Street, Fort, and by all respectable Shopkeepers and Vendors of Medicine in all parts of Bombay and the principal Stations in the Bombay Presidency.

Sole Manufacturer—S. B. MOTIWALA, Frere Road, Fort, Bombay.

[Besides the Certificates that have already appeared, a few are selected and given below] :—

The demand for Mr. Motiwala's medicines has increased very much, and the public entertain a very good opinion about them.—Extract from the *Rast Goftar* of 4th May, 1879.

I was suffering from a strong attack of Dysentery for a few days. I tried many remedies during that period but without any good effect. Ultimately I took Mr. Dossabhoy Bezonjee Motiwala's Dysentery Mixture for two successive days which had so marvellous an effect upon me that I was completely relieved of the pain I was suffering from.

SHEWSHUNKER NARAYEN,
Clerk, Equity Registrar, High Court.

I was suffering from a strong attack of dysentery and passed much blood. Although under medical treatment at the time, I did not derive any benefit. The attack had also made me weak. Eventually I took two doses of Mr. D. B. Motiwala's Dysentery Mixture which checked blood, stopped the griping pain, and cured me of dysentery. In fact I got immediate relief. This medicine has been used by several members of my family with equally good results.

EDULJEE BERAMJEE WADIA,
Late Cotton Inspector, Messrs. Sir Charles Forbes & Co.

MY DEAR DOSSABHOY, 1st *December* 1878.

When suffering from a strong attack of dysentery for several days, I tried many remedies without any good effect. However, on giving a trial to your Dysentery Mixture, I am glad to state that I was considerably relieved by the first dose and entirely cured by three doses, each taken at an interval of three hours.

I have great pleasure in recommending this mixture as an invaluable specific in cases of dysentery and trust it will be as extensively used as a family medicine by the public as your excellent Cough Pills are now used.—Yours sincerely,

DADABHOY FERDUNJEE KARANJIA,
Auditor, Accountant General's Office.

COMMERCIAL INTELLIGENCE.

WEDNESDAY EVENING, Nov. 26, 1879.

CONSOLS in London are quoted ¼ higher at 98⅜; French Rentes unchanged at 115½; Enfaced Rupee Paper ½ lower for Fours at 79½, Fours-and-a-half unchanged at 87.

Reuter's rates of discount in the London Money market, as reported yesterday, prove, as we anticipated, to have been erroneous, quotations now coming 2 per cent for 3 months and 2½ per cent for 4 months bills. Further withdrawals from the Bank of England are advised of £400,000 for North America and £100,000 for South America. The rate of Exchange on London in Paris has receded from Fcs. 25·27 to Fcs. 25·24½ per £ sterling.

In the London General Produce markets, Coffee and Cocoanut Oil are given as unchanged. Respecting Seeds and Wheat Reuter is silent, but we learn from private sources that there is no quotable movement.

Piece Goods in Manchester are still firm, quotations being the same as on Friday last, but private telegrams give rather higher prices.

Cotton in Liverpool yesterday closed firm at unchanged prices, the day's sales being put at 7,000 bales, of which 800 were Surats. In New York, however, an important advance has taken place, without any visible cause, ready Mid. Uplands having advanced from 12¼ to 12⅝ cents, February shipment from 12·36 to 12·65 cents, per lb. The receipts at the ports show the following comparisons with the two previous seasons :—

	1879.	1878.	1877.
Tuesday's Receipts	35,000	35,000	26,000
Four days' do.	123,000	94,000	92,000
Total since 1st Sept.....	2,005,600	1,532,000	1,422,000

Bar Silver in London, according to Reuter, has receded from 53¾d. to 53½d. per os., equivalent to about Rs. 8 7-16d. per rupee—and this appears to be confirmed by private advices.

Exchange this morning opened quiet with every appearance of yesterday's decline being continued, but during the day one of the banks came out as a seller of demand at 1s. 8 9-16d. and of telegraphic at 1s. 8 17-32d. on account of a branch; and Calcutta advices also coming steady, the market closed firm with a recovery of 1-32d. in Bank Bills from yesterday's closing rates. A considerable business has been done in Bank Bills both ready and forward, which would seem to indicate an opinion in favour of a decline, but for the remainder of the Mail we shall as usual be guided by the result of to-day's biddings for Council drafts in London. From existing indications here the general idea seems in favour of something between 1s. 8 7-16d. and 1s. 8¾d., and we are inclined to look favour these figures but should speculators again intervene all calculations may be upset. We quote :—

Bank Bills, on demand	1s. 8 17-32d.	Per rupee.
Do. 3 months' sight...	1s. 8 11-16d.	,,
Credits 3 ,, ,, ...	1s. 8 13-16d.	,,
Documents 3 ,, ,, ...	1s. 8¾d.	,,
Finance 3 ,, ,, ...	2·19¾	,,

On Calcutta we still quote par to 1-16 premium for demand, ¼ per cent discount for 60 days' sight.

Government Paper is steady but not active, closing quotations being—Fours, Rs. 93; Fours-and-a-half, Rs. 101 5-16 to ⅜.

The Share market is steady but not active. Bank of Bombays are unchanged at Rs. 675. Land Companies are unaltered; and in Press shares the only movement is an advance of Rs. 5 in Land Press. Spinning and Weaving Mill shares are still somewhat irregular. Jowraj Balloo and Oriental are Rs. 5, Dhurrumsey Rs. 10 per share higher, Manockjee Petit Rs. 5 lower.

Cotton has been very firm to-day, and sellers are asking an advance of Rs. 1 to Rs. 2 per candy on yesterday's closing rate. There are buyers of New Cotton, and a fair extent of business would have been done had there been sellers; but the feeling against selling seems particularly strong especially amongst European firms, and this as much as anything constitutes the strength of the market, home quotations showing no margin on current figures. Quotations are :—

Good Omra	Feb. delivery.....	Rs. 220 per candy.
,, Broach	March ,, ...	,, 231 ,,
,, Hingunghaut,	Dec.... ,, ...	,, 241 ,,

Seeds.—Linseed continues very firm at Rs. 7 to Rs. 7-3 per cwt according to quality. Rapeseed is neglected and quite nominal. For Gingelly the demand is less active than yesterday, and we quote mixed at Rs. 40½ to Rs. 41 per candy.

Freights show great firmness with steadily advancing rates. For Liverpool the City of Baltimore (S. S.) has been filled up at 32s. 6d. to 33s., and for the Byder Hall, (S. S.) which has been booked at 40s. It is reported that a steamer has been fixed for February loading at 35s. per ton. Genoa and Marseilles freight is still scarce. The India (S. S.) has engaged further at 40s. and relets have been done by the Trinacria (S. S.) at 42s. 6d., payable here. For Trieste and Venice a good enquiry still prevails, and 37s. 6d. is now asked for January shipment.

Piece Goods continue in fair demand from the bassar, and clearances are estimated at about 300 packages per day, prices being again slightly in sellers' favour. Local Goods are steady; Yarns firm and in good demand.

Coals are unchanged on the spot and prices unchanged; but to arrive there has been more willingness to sell, without, however, leading to any transactions.

The Bombay Gazette

THURSDAY, NOVEMBER 27, 1879.

The Bombay Chamber of Commerce has, we see, determined to hold a special meeting for the consideration of Sir John Strachey's new Licence Tax Bill. As the provisions of this Bill must add largely to the burden of direct taxation already imposed upon the mercantile class, we hope that the Chamber will call upon the Finance Minister to explain clearly what necessity has arisen for this increase of taxation. We admit the power of the Government to refuse any explanation on the subject; but Sir John Strachey has lately shown so much anxiety to act in accordance with the views of the Bombay Chamber of Commerce that he can hardly refuse to comply with the reasonable request that he will be pleased to make known to the tax-paying public what is the actual condition of the Indian finances. We know that some months ago a programme of economical reforms was put forth by the Government of India which seemed full of promise of important reductions of expenditure. Since that time the renewal of the Afghan war has deranged once more all the calculations of the Finance Minister, and it is desirable to know if this new tax is required to pay part of the expense of Sir F. Roberts's advance on Kabul, because the question is hotly debated in England whether or not Indian taxpayers ought to be mulcted in the costs of that expedition. Sir John Strachey is bound, we do not say in law, but in courtesy and honour, to let us know how we stand in this matter. The Government has saved a good deal of money on exchange this year, and the prosperous harvest assures it against any loss of land revenue and guarantees it a steady improvement in the amount yielded by indirect taxation. The abdication of Yakub Khan, again, has enabled it to collect on its own account all the revenues of the kingdom of Kabul, which ought, in justice to India, to be applied towards paying the bill for the Afghan war. There would appear, then, to be some ground for hoping that Sir John Strachey will have to announce an improvement, instead of a deterioration, in the financial condition of India since he brought forward his Budget for 1879-80. Certainly, the prospects of the country ought to have changed materially for the better, if the promised reductions of expenditure have been carried out wisely. What we fear, however, is that the so-called reforms may have added to, instead of diminishing, the charges on the Indian revenues. The foolish policy of interrupting the progress of productive public works, or in some cases abandoning them altogether and sending large establishments adrift, inflicts permanent injury on the country; but it has no doubt by way of compensation the advantage, whatever that may be worth, of effecting a considerable reduction of expenditure in a given year. But on this side of India at all events, and we presume in other provinces also, reductions of establishment have this year been effected in such a manner as cannot possibly benefit the State. Engineers employed by municipalities, companies, or native States, who cost the Government of India nothing, have been solicited by the wiseacres who direct the policy of the Empire to be kind enough to accept large bonuses and liberal pensions and to retire at once from the public service. Of course, they have gracefully complied with this considerate request, have pocketed each of them the unexpected and very pleasant windfall of several thousand rupees, and now remain in India in the appointments they previously held, with the comfortable certainty of receiving for the rest of their lives a nice little pension from the Government they have ceased to serve. Other engineers, again, of mature experience have been permitted to retire, while their places are filled by the inexperienced youths whom the Cooper's Hill College still vomits forth to recruit the Indian Public Works Department. This is the old story over again of Indian economies. Every cry for retrenchment raised by the taxpayers is answered by an elaborate scheme which shows a fair immediate saving on paper, but the ultimate effect of which is to pension off one more set of Indian officers in the prime of life, just when their services ought to be most useful to the State. A member of Parliament humorously complained last Session that he could not make his way without difficulty along Pall Mall, on account of the crowd of pensioned Anglo-Indians that thronged the street, and the increase in the Home Charges caused by the accumulation of so many layers of pensions will soon become a public scandal. To our thinking the economical policy represented by fresh bonuses and pensions is a cruel and wicked waste of public money, and we sincerely hope Sir John Strachey will be able to satisfy the Bombay Chamber of Commerce that in the present instance, at least, merchants are not called upon to pay a larger percentage of their incomes to the State in order to support in comfortable idleness at home a number of officers who ought to be employed on duty in India.

The old saying that it is the unforeseen that always happens bids fair to be exemplified in the Anglo-Russian quarrel. Ten years ago there was not a politician in India or England who ever thought of the chances of English statesmen pushing on the Indian frontier to the Oxus as a thing worth discussing; but there is now a strong expression of opinion everywhere that England can do no less than to follow up her Afghan successes to their full and natural fruition. Although there is little comment on the subject, it is evident that the idea of a Russian invasion of India is passing away from men's minds as something almost obsolete. Soldiers and statesmen have given up the task of arguing one way or the other on the possibilities of a Russian invasion of this country, and people are no longer called Russophobists because they express the opinion that the Russians have designs on India which they would accomplish if they could. The scene is shifted, the passes and their defences disappear, and in their room we have the walled city of Herat and the flowing waters of the Oxus standing out as clear as pictures on the canvas of a panorama. The new departure of a policy that may be said to have changed itself was taken no doubt when Cavagnari fell; but men are not yet conscious of the magnitude of the changes that are happening and will happen, and cannot at all realise the extreme probability of the Russian and English sentries of the two nations' respective frontier guards being within visible distance of one another. To do this we must look further afield than the confines of the old Central Asian Question, which is only another name for the alarm as to the possible invasion of India, and take in, with what Dr. Johnson called "comprehensive view," the whole of the Russian policy for the past few years. To do this we must acknowledge—and there is not much difficulty in doing so—that with Russia the Central Asian and the Eastern Question are one; and, again, we must except as a self-evident fact that the Russian attacks on the Tekke Turcomans are affairs prefatory to the occupation of territory further on—that is to say, nearer India. Now it seems to us that, in discussing all this, the first thing to do is to ask if Russia has a quarrel with us, and to what end? And the reply, borne out by the assurances of Baker, Burnaby, Schuyler and other Central Asian travellers, would be in the affirmative. They would tell us that the Russians are intolerant of the English influence in Asia; that they hate us in Asia more even than they do the Germans in Europe; that they cannot abide the thought of England rivalling them in the commerce or the politics of the vast Central Asian regions, and that they are confident they can only humble England and destroy her influence, which they dread, by advancing close enough to Hindustan to rouse its peoples against us. That is Russian policy as expressed by Armenians, Cossacks, Syrians, Turks, Jews, Chinese, and even Hindus, and it is singular that what all these uneducated people see quite plainly is made misty and uncertain to the sight of many of our profoundest statesmen. Perhaps, being akin to the Russians in their ways and thoughts, Asiatics can discern Russian motives and the springs on which they act better than the Westerns do; but at all events all Eastern nations are clear enough on the point that Russia hates us heartily, and will have it out with us the very first opportunity in India; and the very existence of this feeling ought to be sufficient in itself to rouse grave anxiety as to the future in the minds of the anguish rulers of India. Now, if the Afghan war had not been forced upon our Government by events which they could not control, Russia's presumed game must have been soon played out. The Turcomans would have been conquered and Merv annexed, while we were scarcely hearing of these momentous affairs at Peshawur. A little later and Herat would have gone, and Russian influence in Afghanistan must then have become supreme. However, the Russian game is for the present just as much interrupted as one of chess or backgammon at sea when the dinner bell rings, and what is of most concern to us now is to know if Russia will be permitted to resume it again. We must draw the line between ourselves and the Russians somewhere, and where on earth is it to be drawn? We do not think it can be drawn one yard closer to India than the nearest point to India to which the Russians can advance. Let it be remembered that the Russians have always denied, and truthfully we believe, all intentions on their part of invading India with an army. They are not strong enough yet to do that, distant as they are from a base, but they can do much better for themselves than risk an army and its line of retreat by sending one into Hindustan. What they can do is to overshadow us in India, and from Merv, and perhaps Herat to cast the baleful shadow of their near presence on British India, its Government and its works; and, finally, when intrigue has done its worst, and a railway connects the Russian forces at Merv with a sufficient base, to fight us in or out of India, the season favouring.

There is, there can be, only one feasible method of defeating Russian policy in this business—and that is, to make India's

AN ENCOUNTER WITH THE SEPOY REGIMENTS WHICH ATTACKED THE RESIDENCY.

ARGANDEH, via KABUL, Nov. 24.

General Roberts, accompanied by Colonel Macgregor and a small escort, arrived here yesterday. A hundred mounted men and followers of Raja Khan marched in front on their way to Ghazni. On reaching Argandeh, General Baker ordered them to leave their arms and go to Kabul. They obeyed contentedly, and nothing was heard of any hostile gathering in the Ghazni direction. At midnight, after General Roberts's arrival, word was brought that several of the sepoy regiments which attacked the Residency were in a village six miles off. A squadron of the 9th Lancers and two squadrons of the 14th Bengal Lancers, under General Ross, were sent out to capture the men. They took the road leading to Bamian, and, after trotting eight miles, they found themselves face to face, on a low range of horse-shoe hills, with a fortified enclosure having four towers. A volley was fired into the Cavalry from the tower. Fortunately the Lancers were in skirmishing order. One sowar was slightly wounded, two of the 9th Lancers' horses were shot dead, and another crippled. The hills all about were instantly covered with armed men, and a heavy fire was opened upon the Cavalry, who withdrew about a mile. The enemy showed in such force that the Cavalry could not venture to advance, but dismounted and attacked them. After a brief waiting, the enemy not going out of their strong position, General Ross returned to the *maidan*, arriving at eight o'clock. We strike our camp early to-morrow, and, leaving all the baggage under a strong guard in the neighbouring fort, we shall march and attack the enemy, which consists of 300 regulars, armed with Sniders, and a large force of local hillmen.

KABUL, Nov. 25.

At daybreak to-day tents were struck and General Baker moved out with a body of troops towards the villages which fired upon our Cavalry. General Roberts accompanied the party. After eight miles' march, we reached the open valley. The heights that were crowned with the men on the previous evening were now found deserted; as was also the fort. Some fifty men showed themselves on the distant heights, but kept out of range. The chief fort belonged to Bahadur Khan, who had refused to furnish any supplies, and had gathered forces to resist our Cavalry, who were sent to bring him in and at the same time capture the sepoys of the Ardal regiments who were hiding with him in nine walled enclosures, which were sacked and fired by our troops. Only those owned by Bahadur Khan were destroyed. Our troops marched back to the *maidan*, only a few shots being fired by the men on the heights in bravado.

MR. JUSTICE GREEN has sanctioned the sale of the Mandvie Spinning Mill by private contract to Mr. J. Gordon for Rs. 3,16,000. The original conditions of sale were slightly varied by his Lordship with the consent of the parties; and an order has been made that the purchaser should enter into possession on payment at once of the whole balance of the purchase money (namely, Rs. 2,66,000) on receiving a rebate of 9 per cent. for a period of four months. The total liability of the company is about eight lakhs of rupees, of which two lakhs are due to the Bank of Bombay and a lakh to Mr. Cursetjee Jehangir Tarrachund. It was understood that a sum of two lakhs was to be applied to the liquidation of the claim of the Bank of Bombay, as mentioned in the original agreement of sale. His Lordship also confirmed the sale to Mooljee Jairaz of the company's press at Munmad for Rs. 12,000, subject to a deduction of 2 per cent. for brokerage, and a small piece of land in Pachora for Rs. 400.

IT is officially notified that during the absence of the Government of India from Simla, Captain R. A. Sargeaunt, R. E., will have charge of those portions of the offices of the Secretary to the Government of India, Public Works Department, and the Accountant General, which are left in Simla.

REPORTS on the state of the season and prospects of the crops for the week ending November 18 state that rain fell in most of the districts of the Madras Presidency, and the north-east monsoon has been, so far, favourable; harvesting is going on with a satisfactory outturn; prospects are good. In Bombay there was no rain, and it is wanted in parts of the Deccan; fever prevails throughout the Presidency, but especially in Gujarat; the crops are in good condition. In Bengal also no rain has fallen during the week, and its want is felt in Orissa; the cyclone in the Cox's Bazar sub-division is now reported to have damaged about three-eighths of the winter rice crops; general prospects are very good. In the North-Western Provinces and Oudh the weather has been fine and seasonable; the public health is slowly improving, but the ravages of fever have been very severe; the *rabi* sowings are nearly completed. In the Punjab prospects remain favourable and prices have a downward tendency; fever, though still bad in some districts, is abating. In the Central Provinces the weather has been seasonable; the harvesting of the *kharif* is proceeding with a good outturn; prices are falling. In Burma the wet weather is now over; agricultural prospects are very satisfactory, and crops have commenced to be reaped in places. In Assam and the other Provinces and States the weather has been clear and prospects remain good.

DR. S. BORAH, of the Covenanted Medical Service, who is a native of Bombay, and who has lately been doing detached duty at Hyderabad, recently arrived at Calcutta, having volunteered his services for the frontier, but as no more medical officers are required for Kabul, he has been ordered to join the Naga Hill Field Force.

IT is officially notified that duty at the rate of Rs. 700 shall be levied on each chest of Malwa opium of 140⅓ lbs. avoirdupois net weight imported into Mysore. The duty shall be credited as Mysore revenue.

AN Afghan gentleman at Dera, who is shortly about to return to Kabul, has informed the correspondent of the *Delhi Gazette* that Sir Louis Cavagnari's head (after he was decapitated) was sent to Herat in a bag to convince the soldiers there of the Envoy's massacre! The hunt for Cavagnari's head will in time become an historical event like that for the head of Cromwell's body.

THE special correspondent of the Allahabad paper refers to the charge of setting fire to the clothing of the wounded at Charasiab, and states that the incident has been made the most of. He goes on to say:—In a letter from the correspondent of the *Civil and Military Gazette* appeared a paragraph in which "a noble corps" was said to have disgraced itself by burning alive the wounded Afghans left behind by their friends on the Charasiab heights. The paragraph implied, from the context, that the 72nd Highlanders had been guilty of this cruelty; but an enquiry being made, Dr. Bourke, the correspondent of the Lahore paper, said that, although he had not named the regiment, it was the men of the 5th Goorkhas who had burned the Afghan wounded. This was the first General Roberts had heard of any such occurrence, as Dr. Bourke had made no report on the subject, although he had drawn a highly coloured picture of the scene in his letters. The General at once ordered a court to assemble and to take evidence, not merely to clear the good name of the 72nd, but to investigate the charge against the Goorkhas. The President of the court was Major Pratt, of the 5th Punjab Infantry. Being a closed court, it has not, of course, transpired what evidence was taken; but I believe the following are the facts of the cases of cruelty said to have taken place. When the heights were cleared by the general rush of General Baker's troops, the Afghans left their dead on the ground, as well as several men wounded at close quarters. A Goorkha was seen stooping near one of the latter; and when Dr. Bourke, with the ambulance, came up, it was found that the Afghan, who had been shot through the breast and almost disembowled by a bayonet thrust or slash from a *kookrie*, had had his clothes set fire to. A box of matches was lying near the body. The man was *in extremis*, and was said to be insensible; and by Dr. Bourke's orders a European soldier shot him through the head. Another Afghan lying near had also his white clothing smouldering, and he was shot in a similar way. This seems to be the plain truth about the affair, which has been exaggerated into the wholesale burning alive of wounded men. The Goorkhas know the superstitious dread of Mussulmans of any part of their body being destroyed after death; and, on the face of it, there is the probability of a lighted match having been applied to the clothes of men seemingly dead, in order to send their souls to perdition. No one in the force would seek to be an apologist for such cruel acts as burning alive, deliberately and systematically, the wounded men of an enemy even so cruel as Afghans; but the unjust reflections cast upon the 72nd Highlanders and upon General Roberts himself, as letting such acts go unpunished, are as unjust as they are absurd. The General knew nothing whatever of the incident until his attention was called to it in the newspapers, and his action then was prompt enough.

Some further information has been received about the Russian expedition which has been exploring on the Oxus. At Termez, which is on the other side of the river, north-west of Balkh, the exploring party separated into two sections. One went down the river to Khiva and Petro Alexandrovsk; the other section explored the country and the affluents of the Oxus between Termez and the Wakh, and then followed the line of the Oxus to Petro Alexandrovsk. In fact, the programme of the expedition was carried out with exactness. The attack on the expedition by Tekke Turcomans took place, probably, on the way down to Petro Alexandrovsk.

THE Venerable Archdeacon Baly is at present in Lahore, enquiring into the position of the Lahore Free School and Orphanage, and ascertaining what is required to place the institution on the basis recommended by his committee. The Archdeacon met the Lahore General Committee of Education at the School lately, and we believe it has been decided to secure adjacent ground, and to build a new school for boys, besides enlarging the present accommodation for girls, thus providing accommodation for 80 or 100 boarders of each sex.

THERE is at present at Madras a battery of artillery, the N-6th R. A., the men of which only recently confronted those herculean sable semi savages—the Zulus. The battery belonged to General Newdigate's column, and reached Zululand just in time to take part in the brilliant victory of the British over the Zulus at Ulundi. The battery consisted of six 9-pounder guns, which the gunners, "seeking a bubble reputation at their mouths," handled with as much dexterity as that which marked the Zulu's action when wielding his assegai, and under the hot fire of the guns, which belched no end of shells, kraal after kraal succumbed till at length the British flag was hoisted over Ulundi.

ACTIVE efforts are being put forth to render the forthcoming Melbourne Exhibition a success. The "big show" at Sydney has, in spite of a multitude of difficulties, been managed very creditably. The display of goods is said to be very fine, particularly in the British and colonial courts, but France, Germany, Belgium, and the United States seem not to have realised the importance of making a representative show of their chief manufactures. Only a few classes have been at all well filled by them. Special shows of sheep and pigs, dogs, poultry, and flowers have been already held, and cattle and horses are to follow. Up to the present, the weather on the whole has been fine and cool, and visitors have greatly enjoyed both the Exhibition and the picturesque scenery of Port Jackson. Numerous privats and a few public festivities have taken place since the opening. Balls have been held on board the ships of war Le Rhin (French) and the Heligoland (Austrian), luncheons have been given by the Mayor of Sydney, and dinners by the Ministry and the Executive Commissioners. Several of the British exhibitors have sent in their goods very late, to their own disadvantage, but still in ample time to be judged. It is suggested that the palace should be opened on Sundays. The *Sydney Echo* of October 11th says that one of the most backward courts in the Garden Palace is the Indian Court. There seems to have been considerable vacillation, or something worse, about the arrangements in connection with its location and preparation. At first, a very valuable and interesting exhibit of Indian cane furniture was to have been displayed in the nave, in front of the Ceylon Court. Next, three bays in the eastern gallery above the Ceylon Court were promised. One of these was subsequently taken away and given to a humming-top performer, under the title and designation of the South African Court. Still a further indignity, for the poor Indian Court has now been inflicted, in that nearly the whole of the wall-space has been made over to some English paperhanging company. Surely nothing could be more anomalous than for such an exhibit to occupy space which is sadly wanted for the display of some of the beautiful Indian carpets and other fabrics sent down by the Indian Government. We understand the matter has been represented to the Commissioner; and, seeing there is abundant space elsewhere, it would be much more in accordance with the fitness of things if the paperhangings were removed to a more suitable locality and the space devoted to its legitimate purpose. Besides a very valuable collection of teas, dyes, drugs, tobacco, and other raw and manufactured Indian products, the Government of Indian have sent down Azimgarh silk cloth, Benares and Moradabad ware, carpets from Mirzapore, Agra, and Dhansi; cloth from the Cawnpore mills, tea from Kumaon, sugar from Shajehanpore, Rampur chadars, Ludmiana cloth, &c. How these carpets and cloths are ever to be shown to any advantage, if the court be robbed of its wall-space, we fail to imagine. Such an arangement is absurd on the face of it, and a poor return to the Government of India for all the trouble and expense they have so ungrudgingly borne to assist in making the Exhibition a success.

A LARGELY attended meeting was recently held at Badulla, for the purpose of considering the ecclesiastical difficulties caused by the Bishop of Colombo having threatened with excommunication the people of that town, who had attended the services of the Rev. Mr. Schaffter, whose licence had been refused by his Lordship. Resolutions were passed expressive of the indifference with which some of the townsfolk regard the "fulminations" of his Lordship, and of sympathy with Mr. Schaffter. An expression of regret was also incidentally agreed to, that the Missionary Society did not come forward and assert their right.

THE Japan papers report that the British Post Office will be closed on and after the 1st December next, and that its business will be transferred to the Imperial Japanese Post Office.

THE *Anjuman-i-Punjab* wish Dr. Cunningham's "sanitary primer" to be translated into Urdu, Punjabi, and Gurmakhi. Dr. Rahim Khan Bahadur has been proposed as the Urdu vernionist.

THE municipal committee of Amritsar have drawn up a memorandum, in which they signify their full approval of the Hon'ble Syud Ahmed Khan's Vaccination Bill, lately introduced into the Legislative Council.

A TELEGRAM dated November 21, states that the force under Colonel Nuttall, C.B., took Suchema on the 15th; two men were killed; the enemy made no stand. The force under Major Evans burnt Sepphama this morning; particulars not yet known. The Nagas endeavoured to cut off a party convoying coolies and elephants, but retreated on a detachment coming up to their relief. The guns should be up shortly. The General and staff are at Suchema camp. In the taking of Sepphama, Lieutenant Maxwell was wounded slightly in two places, one sepoy of the 43rd was killed and two were wounded. The village of Metsuma was surrounded and burnt by the Manipur forces on the 17th, but the particulars are as yet unknown.

WE learn, from a tabular statement of the effective of the Army of Paris and the nineteen army corps, that the strength of the Army of Paris is maintained at 75,000 men, while the 14th Army Corps, which has to look after Lyons, is generally 40,000 strong. The 3rd, 4th, and 5th Corps, which lie round the capital, seldom muster more than 10,000 men, in consequence of being obliged to furnish troops for Paris. The 6th Army Corps, which has its headquarters at Chalons, is also strong, and seldom drops below 36,000 men. In addition to this force, there are generally three independent cavalry corps in the camp. The 7th Corps, too, which has its head-quarters at Besançon, and which, until a short while ago, was commanded by the Duc d'Aumale, is kept up at about 25,000 men. The position occupied by this corps and the 6th in proximity to the German frontier render extra-efficiency a necessary precaution.

SALMON overgrown with mushrooms are a novelty in natural history, but a delightful one. It is true that at present the growth of the fungoid parasite upon the scales of the lordly fish is looked upon with apprehension, if not with actual disfavour, by the scientific angler, but the general public will never be brought to view such a combination of deliocies as a catastrophe. Mushrooms on the banks of a river mean, so says a fishing correspondent, mushrooms on the fish—and the fish die of "salmon disease." Surely, however, there is in this fact, even if true, no cause for discouragement; it should rather nerve us to renewed efforts in pisciculture. Anybody can rear salmon, but to rear salmon with mushrooms upon them! This is a refinement of luxury permitted to few. What a vista of exquisite combinations it opens to the philosophic prospect. Horseradish might be grown on bullocks, and mint on the backs of lambs. Turkeys might go to market with their indigenous truffles, and pigs provide apple sauce for their own pork. The question at present extends, unfortunately, no further than fish. Yet who would grumble if oysters could be educated to grow on cod, and each turbot to have its attendant lobster?

THE eruption from which the sun was lately reported to be suffering would appear to be contagious, for the astronomers now announce that Jupiter is afflicted by a pimple. It is a large as the continent of Europe, and of a splendid vermilion colour. This is as it should be, for Jupiter, without derogation of his dignity, could hardly confess to a lesser evil. This magnificent wart, we learn, is situated on his "uppermost extremity," a deferential mode, we take it, of saying the top of his Majesty's head and is of an oval form, appearing "attached to the planet itself." An unattached wen, or wart, or pimple, or whatever it is, would indeed be a surprising phenomenon in nature, but astronomers have long ago given over feeling surprise. Vermilion, it may be noted, is one of the royal colours—the Pekin Emperor, for instance, styling himself in council the Lord of the Vermilion Pencil—so that the behaviour of the splendid planet, even under such trying conditions as a gum-boil three thousand miles square, is marked with the solemnity befitting his traditions, and not altogether unattended with pleasing circumstances of good taste.

ENGLISH SPORTING NOTES.

ON the last day (Friday) of the Newmarket Houghton meeting the Jockey Club cup was won by Lord Falmouth's Jannette (9st. 2lb.), to whom Mr. Crawford's mare Out of Bounds (7st. 9lbs.) ran second and Prince Soltykoff's Thurio (9st. 5lbs.) third. The other horses in the race were Insulaire, Zut, and Touchet. Out of Bounds started the favourite, with 5 to 1 against her, and both Touchet and Thurio were fancied before Jannette, being quoted at 5 to 1 each as compared to the winner's price of 8 to 1. At the start Thurio made the running, closely attended by Insulaire, the pair being clear of Zut, who in turn was separated by six lengths of daylight from Out of Bounds, with Jannette whipping in for half a mile, when she changed places with Touchet, who became whipper in. As they approached the Bushes the slow pace admitted of the lot taking close order, and with Insulaire retiring, Jannette, Out of Bounds, and Zut became the immediate attendants upon Thurio. He in turn was done with in the dip, and a fine race between those placed ensued, Jannette having a little the best of the struggle, and winning by half a length; a neck only divided the second and third. Zut was fourth, Touchet fifth, and Insulaire last.

On the same day in the Houghton Handicap, La Merveille, carrying 8st. 5lb. was placed only fourth to Lord Wilton's Cradle (7st. 2lb.), Lord Hartington's Assegai (5st. 7lb.) and Count Lagrange's Ismael (7st. 7lb.) Lord Roseberry's mare started a warm favourite at 11 to 10, the next quotation being 9 to 2. She was well beaten two hundred yards from home.

The chief event in prospect was the Liverpool Cup, which was to be run on the 6th November. There were twenty-one acceptances, but it was not expected that the field would run to double figures. The scratchings up to the date the mail left included Jannette and Dresden China. The latest betting on the event was as follows:—

4 to 1	agst Westbourne, 3 yrs, 7st 8lb (taken and offered)
5 to 1	—— Peter, 3 yrs, 8st 2lb (taken and offered).
100 to 12	—— Rylstone, 5 yrs, 8st 4lb (taken and offered).
9 to 1	—— Sunburn, 3 yrs, 7st (taken and offered).
100 to 9	—— Simba, 3 yrs, 5st 10lb (taken and offered).
100 to 8	—— Rhidorroch, 5 yrs, 7st 4lb (taken and offered).
100 to 8	—— Lartington, 3 yrs, 6st 12lb (taken and offered).
100 to 6	—— Ademite, 5 yrs, 6st 9lb (taken).
20 to 1	—— Sir Joseph, 4 yrs, 7st 13lb (taken and offered).
25 to 1	—— Barley Sugar, 3 yrs, 6st 2lb (taken and offered).
25 to 1	—— Moorfoot, 4 yrs, 7st 9lb (taken and offered).

There was very little being done on the Two Thousand or the Derby, and probably speculation on the two great races will not be very brisk before the end of the year. It is a singular fact that within a fortnight a couple of the fancied candidates for the Derby changed owners, while half interest in a third was disposed of. Beaudesert's sale by the Marquis of Anglesey to Lord Alington and Sir Frederick Johnstone was followed by the disposal by the same nobleman of Prestonpans to Mr. Gretton, while Mr. Charles Brewer has sold to Blanton, his trainer, a half-share of that very smart colt Robert the Devil. Mr. Brewer intends to spend the winter abroad for the benefit of his health, and being desirous that the anxiety of owning a Derby favourite should be shared by some one, he closed with Blanton's offer of 3,000*l.* for the half interest in the son of Bertram. In the Criterion, Prestonpans showed himself to be a stayer of no mean order, and animals that win that test of two year old excellence with a penalty invariably turn out good ones. He has already become again the comrade of Beaudesert, and John Porter will have no little responsibility on his shoulders during the winter and spring in preparing these two colts for their liabilities. Beaudesert will doubtless be the mount of Tom Cannon in the Two Thousand Guineas—a race which, even at this distance of time, seems pretty well at his mercy. Prestonpans at present shows no signs of inheriting the infirmity which told so seriously against his sire, Prince Charlie, when that grand horse was performing on long courses, and he is not at all unlikely to meet with good support for the Derby.

The fine old horse Lollypop has run his last race in England, the Duke of Hamilton having sold him to Count Lehndorff, director of the Imperial stud of Prussia at Graditz.

Bicyclists were busy during the week. A meeting was held at Surbiton on Saturday at which Keen and Stanton competed in a twenty-five miles match, Keen giving his opponent one minute start. Stanton went off at a great pace and was some 650 yards to the good when Keen received the word to "go," which he did to some purpose when started, making the pace very fast, so that by the end of the ninth lap he had knocked off 200 yards of Stanton's lead. From this point he gradually went up to the leader till at the seventy mile they overtook him, and he then rode close behind until the seventeenth mile, when he made an effort, which Stanton answered. This manœuvre was repeated in every mile until the first lap of the twenty-second, when Stanton, missing his treadle, fell as if shot, Keen by the greatest presence of mind escaping a fall by shifting his course, he being close behind at the time. Keen was stopped in the next lap by the judge. His time for 21 miles was 1 hour 10 min. 41 3-5th secs. Stanton fractured his collar-bone by the fall, but the injury did not prevent his departure with Keen before the end of the week for their American tour.

At Surbiton, on the same day when the 25 miles match was decided, a one mile race was run between two little boys—J. R. Dean (aged seven years), scratch; and Hugh Donald (aged six), 75 yards start. Both went off well, with the aid of their friends. The scratch man, who was soon found to be much the stronger of the two, made ready running to get up to his opponent in the last lap, taking the lead half-way round; both then raced hard, but Dean held his opponent, and won by two yards in 6 min. 30 sec. The winner was afterwards presented with a silver cup, and shouldered off the ground.

A six days' contest was commenced on Tuesday morning, at Birmingham, in which the following riders started:—F. J. Lees, Sheffield; G. E. Edlin, Manchester; J. Prince, Langley Green; H. Leeming, Oldham; E. Shelton, Wolverhampton; T. Andrews, Birmingham; J. Nicholls, Willenhall; W. Packer, Willenhall; F. White, Wolverhampton; H. Higham, Nottingham; and J. H. Palmer, Burmingham. At eleven o'clock on Thursday night, four men only remained at work, the distances covered by whom respectively up to that time were:—Higham, 661 miles 2 laps; Edlin, 657 miles 6 laps; Andrews, 644 miles; Packer, 556 miles 9 laps.

The destruction of the boats which prevented the decision of the Hanlan-Courtney match on the Chatauqua Lake, America, continues to excite much discussion, from which it is difficult to see whether Courtney spoiled his own craft to avoid rowing the race, or whether Hanlan or some of his friends rendered them useless to prevent Courtney competing. When the time for the start came, the men were called on, and Courtney not answering, Hanlan was sent on his five miles journey alone, and having rowed over the course, was given an order for the prize of 6,000 dollars. But the agent of the Hop Bitters Company, the donors, refuses to pay the money, and there will probably be some litigation about it.

Hanlan having declined to visit England to row against Elliott, he has been called upon to return the *Sportsman* Championship cup, and a race has been arranged (date not yet fixed) between Elliott and Boyd. The Blythe sculler has informed Hanlan that, should he prove successful against Boyd, he will be happy to accept his offer of £100 expenses, and will visit Canada and row him a match on Toronto Lake, next spring.

Two or three coursing meetings were held during the week. The most important was the Border Union Meeting, at which the Earl of Haddington supplied the divitters for the two big events—the Netherley Cup, for all aged dogs, and the Border Union Stakes, for puppies. The names of the running greyhounds, the only four who were entered by his Lordship for the meeting, are Honey Buzzard, Honeywood, Hornpipe, and Halcyon.

The first tie for the Football Association Challenge Cup was played on Saturday between the Maidenhead and Calthorpe (Birmingham) clubs at Maidenhead. Owing to obstacles placed in the way by the authorities of the Great Western Railway, instead of leaving at noon the Birmingham players were obliged to start two hours earlier, and after a journey of five hours were hardly in the best possible trim for football. The home captain won the toss, and electing to occupy the lower goal Elliott kicked off at 325 towards the railway. The visitors went off with a great rush, and for the first few minutes the ball was chiefly in the Maidenhead half. A sharp run by Bushell for Calthorpe was the first noteworthy event, and the home goal had a narrow escape, the ball just going outside the post. The Maidenhead forwards, who at the outset had been a little wild, now began to work better together, and Lyne and Bassett on the right, and Mackie and Blackwell on the left showed some fast play. A foul by one of the Calthorpe eleven gave their opponents a chance, and for the first time the ball passed over the Calthorpe goal-line. Soon after a corner-kick fell to the visitors, but it was unproductive, and a very sharp run up the side by Lyne and Bassatt resulted in a miskick by one of the Calthorpe backs, which took the ball over his own line. The corner thus allowed to Maidenhead was exceedingly well placed, and Blackwell, rushing forward, put the ball safely between the Calthorpe posts amidst great applause. Ten minutes were left of the first half, but Maidenhead were bent on increasing their advantage, and just before the change of ends, after a very good run and middle by Mackie, Bassett accredited the home team with their second score, the Calthorpe goal-keeper unfortunately slipping just as he had secured hold of the ball. The call of half-time found the home team two goals to the good, and on resuming hostilities it seemed as if they were likely to materially increase their lead. For a few minutes, indeed, Calthorpe were hard pressed, and Lovegrove made a fine shot over the Birmingham tape. Green next had a good chance, but he failed to utilise it, and again Love-grove just missed the Calthorpe goal, the ball hitting the tape and passing over. The Birmingham forwards now made a vigorous rush up the hill, and Ellio t had a corner, which he sent over the line. A neat middle by Bassett gave Maidenhead another chance, but Blackwell shot the ball outside, and Wilkes, with a dashing run, returned the ball over his line, Swain had a corner, but his aim was erratic. During the last twenty minutes the home forwards showed a falling off in energy, and after several unsuccessful attempts Bushell at last succeeded in lowering the Maidenhead fortress. Birmingham continued to have the best of the play, but Maidenhead with a spurt took the offensive again, and after another shot over the opposite tape by Lovegrove a long kick by Goldsmith gave Maidenhead their third goal. During the short time that remained nothing further fell to either side, and thus at the end of an hour and a half Maidenhead had won the first Cup tie of the season by three goals to one. The winners at times played well, and the forwards occasionally showed good passing, Lyne, Mackie, and Blackwell being the most prominent. Vardy as usual was especially active back. The Calthorpe Club missed the help of some of its best players on this occasion, but towards the end their play showed a great improvement. Mealing kept goal well, but he should be careful not to run with the ball, as was the case more than once on Saturday. Sides:

Maidenhead: C. A. Vardy (Captain) and O. Wethered (backs), F. Haseldine and J. Wilkes (half-backs), W. Bassett and W. E. Lovegrove (right), W. Blackwell and F. Mackie (left); W. Goldsmith and G. H. Green (centres), T. Lyne (goal); umpire, J. H. Clark (Maidenhead).

Birmingham: E. Mealing (goal), W. E. Elliott and E. T. Awdry (backs), J. Swain and R. Smith (half-backs), H. Moxon and F. Wilkes (right), W. Bushell and A. W. Moxon (left), W. J. James and A. Couchman (centre); umpire, Mundy (Calthorpe).

Captain Webb has gone from America to Australia, where he intends to compete for the Australian championship. Before he left it was stated in New York that he would challenge Boyton to swim against him next summer, ten miles in American waters, for the Championship of the world and 3,000 dols. aside.

There has been nothing at all doing in the billiard world at home for so long, that billiard players will welcome an account of a match between Joseph Bennett and T. Taylor, played in London during this week. The game was 1,000 up, level. After preliminaries, Taylor got 40, and then Bennett contributed a break of 97, inclusive of twenty-five red winners. After this compilations of 34 (seventeen spots) and 60, all round, enabled him to draw rapidly away from his opponent, the marker announcing the figures as—Bennett 318, Taylor 141. Shortly after this the latter began to improve his position, and while the ex-Champion had reached 375, Taylor, with almost consecutive additions of 42 (ten spots), 44, and 45, reached 275. The ill fortune which had attended him in the earlier portion of the game now seemed to be transferred to his rival, as he scarcely did any scoring while Taylor in rapid succession put together 62, mostly all-round, and 122, a fine innings, inclusive of thirteen consecutive red winners; this took him to the front place, the game being then—Taylor 466, Bennett 414. The last named was here only enabled to add a quartette, when Taylor, once more getting in a good thing, obtained position opposite the object ball at 497, when he ran on to 632, his total compilation amounting to 166 with forty-five consecutive spots. At this point an interval was called, the game standing—Taylor 632, Bennett 418. On resuming operations Bennett quickly ran up 80 (eighteen spots), Taylor answering with 29. The first named then again progressed with 43, leaving both balls in baulk. Play now ruled rather quietly, although Bennett did the most work, 43 (nine spots), 24, and 25, taking him to 591 against 699. At this juncture he made a fine innings of 118 (twenty-nine spots), which again gave him the command at 709—704. In reply Taylor put on five, when his rival once more getting into position at the head of the table at 720 ran up thirteen red winners in an addition of 50, and this he supplemented with one of 41 (eleven spots). State of the pool, 800—718, in favour of Bennett. After 13 from his antagonist, the ex-Champion quickly put together 80 more (twenty-five spots), which took him to 880 against 731. From here Bennett had matters pretty much his own way, as with a contribution of 42 he ran out victorious by 249 points, after a very interesting game.
